

## Scabbards

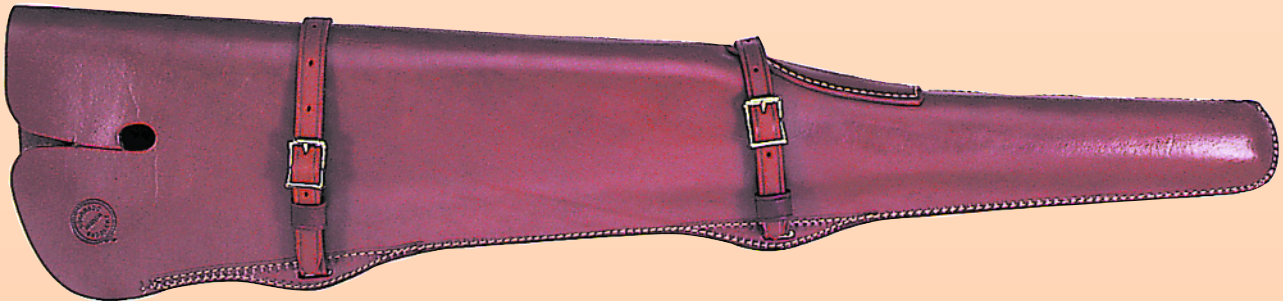

Colorado Saddlery's premium scabbards feature the unique "Leather Lock"™ design. "Leather Lock"™ scabbards hold your bolt action rifle in place with no extra snaps or fasteners to fool with. The "Leather Lock"™ design lets you slide your rifle out quickly and quietly with **just a flick of the thumb, under the flap, to release the bolt.** Game can pop up unexpectedly and the difference between a hit and a miss can be a matter of seconds or the sound of a snap popping. The "Leather Lock"™ scabbards are made of the finest saddle leather using no rivet construction. No rivet construction means less chance of scratching or damaging your rifle in the scabbard. Available in right or left hand. "Leather Lock"™ scabbards are also ideal for Lever Action rifles!
